## USING TRAINS INSTEAD WIRES

Traveling Agents of Western Union Telegraph Company  
Arrested by Inspectors.

Charged—Telegraphic Traffic Increase Given as Reason for Practice.

(Associated Press.)  
Washington, June 20.—Postal inspectors today arrested a number of traveling agents of the Western Union Telegraph company on trains between Boston, New York, Philadelphia, Baltimore, and Washington, and seized suit cases they were carrying filled with messages filed for transmission by telegraph.

This practice is considered a violation of postal laws forbidding persons not connected with the postal service from conducting a traffic in communications over regular post roads.

The facts discovered will be presented to grand juries, and officials of the telegraph company will be summoned to explain. The penalty for violation of the postal law is a fine of not more than \$500, or six months' imprisonment.

Postal authorities for several weeks have been investigating reports that the telegraph company was sending night letters and other messages by train rather than by wire, and delivering them the following day with all the marks of telegraph transmission. The practice was reported to have extended even to some day messages, intended for immediate transmission.

**Rush Caused By War.**  
Owing to the extreme rush of telegraph messages business in recent months the company found it impossible to transmit all messages offered by wire, it is said, and resorted to the messenger system, using fast trains between eastern cities. So far as is disclosed by postal authorities, the system was not used extensively in other parts of the country, although investigation will be made to determine its extent.

It was intimated, however, that the men had been followed in their trips from city to city for some time, and their schedules of delivery had been carefully worked out.

The routes and schedules had been systematized, it is said, so that often the messages were delivered about as quickly as if they had been sent by wire, particularly considering the delay caused by rapid increase in telegraph traffic due to the war.

**All Raids Made At Same Time.**  
The raids on the train agents were planned for this morning and all were made simultaneously. Definite charges have not been made against some of the men, it was explained, pending determination of the extent of their knowledge of what they were about. Whether any high officials of the Western Union company were familiar with the practice and sanctioned it, was not disclosed by postal authorities. It is certain, however, that they will be called on to explain.

## AUSTRIANS LOSE GROUND GAINED AT MONTELO

(International News Service.)

Washington, June 20.—The Austrians have lost most of the advantages gained at Montello, according to an official dispatch from Rome, received today at the Italian embassy.

While further details are lacking, Italian officials in Washington expressed confidence that the tide on the Italian front has turned in favor of the allied cause.

**GERMAN SOCIALISTS SURE ILL FEELING WILL BE RESULT**

If Price of Bread is Increased, With More Profits to Landowners—Other Things Will Also Go Up.

(Associated Press.)  
Amsterdam, June 20.—The Berlin Vorwaerts, the German socialist organ, in announcing the increase in the price of bread to five pfennigs per pound, says this price will bring the landowners 1,000,000,000 marks surplus profits and necessarily will be followed by increase in the cost of milk, butter and beef.

The socialist party, says the newspaper, has formally protested to the government on the ground that the increases will be sure to create the greatest of ill feeling.

**POSTPONE ACTION ON JONES AMENDMENT**

## MACON'S POPULATION SHOWS AN INCREASE

(International News Service.)  
Macon, Ga., June 20.—Macon's latest city directory, just out, gives the city a population of 61,262. Last year the figures were placed at 59,190.

## SAYS IT ACTED LIKE A CHARM

Coughs, colds, sore throat or bronchial troubles which persist at this time of the year usually are of an indistinct character. That is all the more reason why a truly reliable remedy like Foley's Honey and Tar Compound should be used. Mrs. Margaret Smale, Bishop, Calif., writes: "Foley's Honey and Tar is a grand remedy; more than is claimed for it. I was suffering from a cold last week and used the medicine and it acted like a charm." Contains no opiates. Jo Anderson, druggist, Chattanooga, Tenn. (Adv.)

## Germany Warned of the Impending Fall of Lenine

(International News Service.)  
London, June 20.—German officials, familiar with the true situation existing in Russia, are warning the German government that the downfall of Nikolai Lenine, the bolshevik premier, is impending, said an Exchange Telegraph dispatch from Amsterdam today.

## WASHINGTON REGARDS SITUATION FAVORABLE

Flood in Piave Throws Forces of Nature on Side of the Allies.

(By John Edwin Nevins, I. N. S. Staff Correspondent.)

Washington, June 20.—The general war situation was exceptionally favorable today. Officialdom was distinctly optimistic over a number of matters that stood out prominently. They included:

Certainty that the Austrian drive against the Italian front not only has been definitely checked but realization that the swelling waters of the Piave river which has carried away many bridges, has thrown the forces of nature on the side of the defending Italian armies. The next 48 hours will bring increasingly better news from the Italian front war department officials declare.

Admission is that certain American troop units are going directly to Italy. Their presence will hearten the Italians as they are to be brigaded with the Italians as on the French front at least for the present.

Intimation from neutral sources that Germany cannot spare any additional troops to operate with the Austrians because of the speed with which the American troops are being sent to France.

The Italian situation easily may become the turning point in the war, officials pointed out. All information reaching the war department indicates that the internal situation in Austria is growing worse. Failure in Italy, coupled with inability of Germany to aid the military offensive is likely to add to the discontent, officials say with the result that a general revolutionary movement in Austria is not beyond the bounds of possibility.

## WILL REALIZE IDEAS OF FREEDOM BY WINNING WAR

(Associated Press.)

London, June 20.—(Via Ottawa.)—The necessity for national unity, especially at this particular time, is emphasized by Premier Lloyd George in a letter to Mr. Greet, the coalition candidate for the house of commons in the Clapham division, who is being opposed for the seat.

"The only issue at the present time is national unity," the premier's letter reads. "In a resolve to subordinate everything to winning the war the Germans are bent on undermining the morale of the allies by promoting distrust behind the lines. We have got to show that until the attempt of an unscrupulous military oligarchy to impose its despotism on the world has been definitely defeated nothing can turn us aside from our goal."

Only through winning the war can we realize the ideas of freedom for which we entered the war."

**Speed—Speed!**

Uncle Sam pushed the clock ahead one hour to give more light.

Take advantage of it. You owe it to yourself and your country to make every minute count. Use your car—passenger or commercial—to the limit.

Samuel P. Colt, president of the United States Rubber Company, helped awaken the country to the economic value of the automobile last fall. He said—

"Everything on wheels must be used and mobilized. The automobile is second to the railroad as an adjunct and supplementary to them in collecting and distributing merchandise."

"Owners should use their cars, both passenger and commercial, more and more."

Make the most of your car by using the tires that will extend its usefulness to the utmost.

Use good tires—United States Tires.

They last longest and carry you farthest at least cost.
